Jamb detail with L-bead trim and barrel hinge

Jamb detail with L-bead trim and concealed hinge

Flush-to-Wall Jamb with Reveal (available with a 20-minute fire rating)

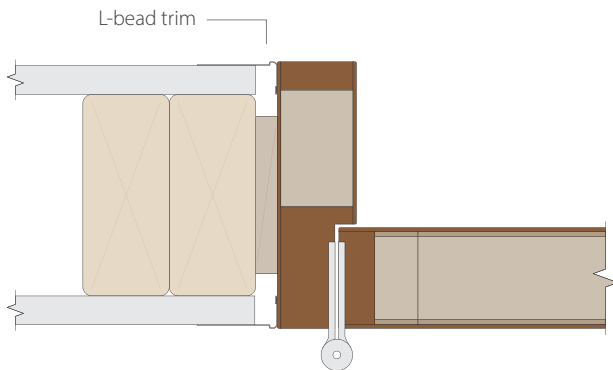

Jamb detail with L-bead trim and barrel hinge
 This option is available for 20-minute house-to-garage applications; minimum wall depth applies.

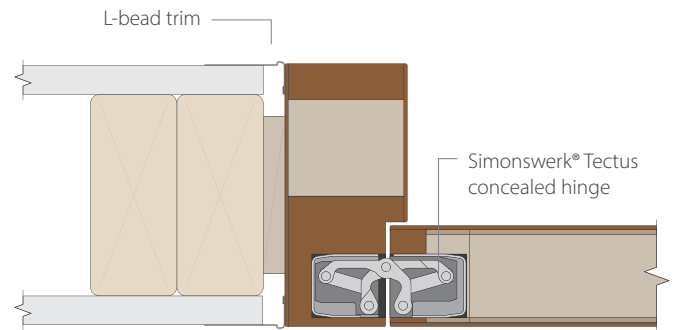

Jamb detail with L-bead trim and concealed hinge
 This option is available for 20-minute house-to-garage, natural wood door applications; minimum wall depth applies. Door closer required for self-closing requirements.

Flush-to-Wall Jamb (available with a 20-minute fire rating)

Jamb detail with L-bead trim and barrel hinge
 This option is available for 20-minute house-to-garage applications

Jamb detail with L-bead trim and concealed hinge
 This option is available for 20-minute house-to-garage, natural wood door applications. Door closer required for self closing requirements.

TMF1000 in MDF with a rabbeted door edge for integration into a trimless door jamb

Modern Inswing Jambs

New TruQuote Functionality Simplifies Coordination with Popular Trimless Door Frames

To deliver a more seamless solution to our customers looking to install TruStile doors into modern inswing applications, we have introduced new options to simplify the coordination process.

TruStile MDF flush door styles can now be configured for rabbeted edges and hinge preps compatible with the EzyJamb® Inswing Door Jamb (EzyJamb® ISD), EzyJamb® Single Rabbet Door Jamb (EzyJamb® SRC), Dorr Houzzer Ghost and Dorr Houzzer Phantom trimless frames. This allows EZ Concept®, Dorr Houzzer, and TruStile Dealers to receive a TruStile door ready to hang into these frames without further field modification. This offering is currently designed for TruStile dealers that are set up to purchase frames directly with EZ Concept or Dorr Houzzer.

Specifications:

- Available for TruStile MDF TMF1000 flush doors and similar flush door styles with kerf cut reveals
- Sizes up to 4' × 10'
- For 1-3/4" and 2-1/4" doors
- Doors prepped to match frame manufacturer specifications; frames must be ordered separately directly from the manufacturer
 - To ensure hinge and hardware locations match their jambs, Dealers are responsible for ensuring door hinge and hardware specifications match jamb order

New Modern Door Styles

We originally created our Tru&Modern Collection to be a bold statement of style within a home. Our latest door styles build on what we currently offer, allowing designers to go beyond what we were able to do in the past. From simple to bold, we have expanded the broadest line of made-to-order, handcrafted, modern doors to achieve your exact vision.

Tru&Modern Flush Glass (TMFG Series) Styles

Tru&Modern Flush Glass (TMFG) doors are a new subset to the Tru&Modern collection and offer inset glass stopped into flush constructed MDF and wood doors. Similar to our Tru&Modern Flush Series, veneer grain will consistently align across the surface horizontally or vertically depending on your preference.

Tru&Modern (TM Series) Styles

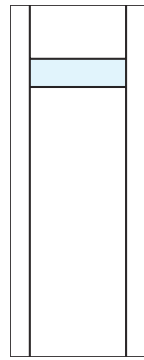

New Tru&Modern styles offer glass stopped into flush-constructed doors with vertical kerf options that align specifically with the stop around the inset glass. Unlike our stile and rail glass doors, veneer grain will consistently align across the surface, horizontally or vertically, depending on your preference.

Tru&Modern Senior Flat Panel in Wood

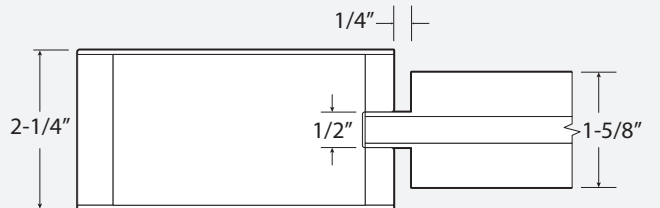

Based on a common custom design request, TruStile has developed a new, unique thick flat panel design in wood that provides a modern look with 1/4" gap created between the panel and surrounding stiles and rails. This nearly flush panel option brings a sophisticated, modern look to wood stile and rail doors.

1-3/8" Profile with Square Stick (SS) sticking and Senior Flat (H) panel

GET THIS LOOK

Recreate the look of this S4S applied moulding by selecting two mouldings with the following measurements.

First moulding size $1/2''$ W \times $1/2''$ H

Second moulding size $1''$ W \times $3/8''$ H

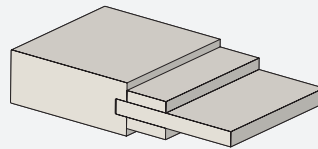

S4S Applied Moulding

Configurable profiles to create a look that is uniquely your own

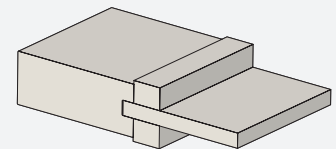

We are pleased to introduce a configurable “surface 4 sides” (S4S) applied moulding design. This new option allows customers to choose one or two tiers of moulding in a variety of customizable dimensions.

Single tier examples

Single Tier Look

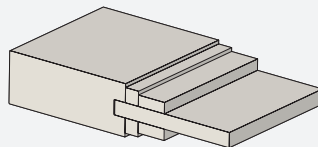

Moulding size 1-1/2"W x 3/8"H

Bold Frame Look

Moulding size 1"W x 3/4"H

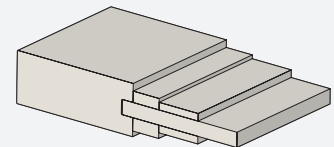

Double tier examples

Simple Tiered Look (shown left)

First moulding size 1/2"W x 1/2"H

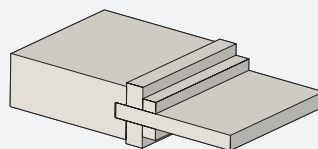

Second moulding size 1"W x 3/8"H

Mid-Size Tiered Look

First moulding size 1"W x 3/8"H

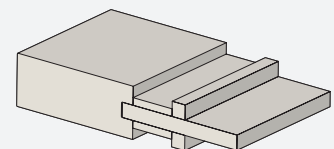

Second moulding size 1-1/2"W x 1/4"H

Simple Step Look

First moulding size 3/4"W x 3/4"H

Second moulding size 1/2"W x 3/8"H

Jumbo Quirk Look

First moulding size 1-1/2"W x 1/4"H

Second moulding size 1/2"W x 1/2"H

Mouldings can be configured with the following dimensions

Width: 1/4", 1/2", 3/4", 1", 1-1/2" Height: 1/4", 3/8", 1/2", 5/8", 3/4", 7/8"

Tru&Modern Metal Inlays

Adding metal inlays to your Tru&Modern Infinite Rail (TMIR) doors brings an added level of design and sophistication. Our metal inlays span the complete width of the door within a 1/2" kerf cut. We have added four new color options to select from that align with current design trends.
